ONE-ROUND FIGHT IN ASSEMBLY HALL.

and Clerk Webb Have a Personal Encounter.

SLUGGED WITH HOUSE JOURNAL | GALLANTRY TO BE REWARDED.

kets Overturned and Clothing Torn in the Mix-Up-No Serious Harm Done.

REPUBLIC SPECIAL. Jefferson City, Mo., Feb. 2.-A lively shysical mix-up occurred this morning in the hall of the House of Representatives, in which Representatives Organ and Delzell and A. A. Webb, editor of the Bos-worth Star, figured as principals and some twenty Representatives, Senators, clerks and doorkeepers as peacemakers.

Chairs, spittoons and wastbaskets were

overturned and clothes were torn in the struggle to separate the combatants. According to accounts only two clows scored. Organ of Dent is said to have landed a House journal of the Fartieth General As-sembly on Editor Webb's head and the latter is credited with landing a glancing blow over the ear of Representative Del-zell. The proximate cause of the fracas was the stanch service rendered by Organ and Delzell in maintaining the House cieri-cal force at proper dimensions and in con-sistently standing out against increases. Webb is clerk of the House Committee on

Criminal Jurisprudence, appointed on rec-ommendation of Conkling of Carroll.

The immediate cause of the fracas was an article printed by Webb in a recent isue of his paper.

The article referred to Organ as "the be-The article referred to Organ as "the bewhiskered Organ of Dent County, the kicker on cierical force who has succeeded in
getting himself to be the most thoroughly
hated and despised member by the employes," and to Delzell as "another member who has thought it smart to pattern

The House was in recess, and Organ and

Just how Representative Deizeil got into the fight is mysterious. He is a big man, too, but is not credited with being a "scrapper" or with having a quick temper. He tells the story himself.

"I had never seen Webb to know him till he came to Organ's desk," he snys. "Then I recognized him from what he said and from descriptions as the man who had assoulted me in his paper. I heard him say something in a general way about "rascals" and I started for him just as Organ and he began hostilities."

It is certain that when the melee cleared up, through the efforts of the peacemakers, Delgell was found in the midst of it with several Representatives, Senators and clerks hanging to him trying to quiet him.

THE BEST TEST

Service and Experience Years.

The best soldier is not the new recruit of few months' service.

The best mechanic is not the apprentice, and the best man in the line is he who has been tried by years of service and experience.

and the best man in the line is he who has been tried by years of service and experience.

This is not only true of men, but of nearly everything else, and especially is it true of medicines for disease. New remedies must be thoroughly tested and their merit established beyond question before the intelligent public will put faith in them.

There are not many remedies which have stood the test of ten years and continued to increase in popularity each year, but this is true of the Pyramid Pile Cure, and it is the only pile cure that has stood this test, and among the many popular medicines on the market it is the only one which can be said to have no competitor; its sale has steadily increased from year to year and this result has been not so much because of judicious advertising as because it has been recommended by word of mouth from one cured sufferer to another.

Piles is supposed to be caused in most cases by a sedentary life and lack of exercise, but it generally comes without any apparent excuse and often people who live an active, outdoor life are victims of the disease. A case in point is that of James Creeden, a lumberman and teamster in Northern Michigan. He says: "I suffered for eight or nine years from itching and protrduing piles, sometimes so severely that I could scarcely walk, then I would get better for a week or two, but the trouble always returned. I could not afford the expense of an operation and endured the disease until I was advised by my mother, who lived in Manistee, to give the Pyramid Pile Cure a trial.

"I had never heard of it, but when I went to tow I selected in the town I selected my druggist shout I and

PROMOTION IN STORE FOR GENERAL WOOD.

Representatives Organ and Delzell | Effect of the Army Reorganization Law on Officers' Rank in Volunteer Service.

Chairs, Spittoons and Wastebas- New Commissions Will Be Issued, but Stories of Wholesale Reductions Are Founded on a Misunderstanding.

> Washington, Feb. 2.-The special dispatches sent out from Leavenworth to the effect that certain officers there are smiling with quiet satisfaction at the prospect of General Leonard Wood being reduced, under the army reorganization, to rank as Major of the Medical Corps, are founded on mis understandings of the facts. The story seems to have been originated by some one unfriendly to General Wood, and with little knowledge of the situation. General Wood's status in the army is entirely different from that indicated. Instead of being reduced to a captaincy or majority under the new bill, army authorities here expect to see him promoted. The policy of the President will be, it is believed, to give high rank to those who have been promoted for distinguished service during the war and are now in ac-

service during the war and are now in active service. Apparently, new commissions will have to be made in all cases.

Among the men most likely to be promoted to the rang of Major General are Generals MacArthur, Wood, Wade and Young. Those likely to receive commissions as Brigadier Generals are Bates, Wheaton, Chaffee, Schwan, Arnold, Rogers and Leonard Wood, if he does not receive the promotion to Major General. But in no event is it likely that General Wood will be reduced, as indicated in the Leavenworth dispatches.

The House was in recess, and Organ and Delzell were seated at their respective decks, which are located close together. Editor Webb approached Organ's desk and remarked: "I understand you are offended at something I wrote about you."

"Yes," said Organ, "but Mr. Conkling tells me a retraction will be printed in the next issue."

"There will be no retraction," said Webb.
"There will be no retraction, said Webb.
"There will be no retraction for fearlessness. They struck simultaneously and missed. Representative McKee, who was seated beside Organ, pulled the latter back just as here. emerged from its hole yesterday, but instead of seeing its shadow as it looked about, a swirl of snowflakes were blown into the face of the prophetic "varmint" and it turned tail and quickly retreated into the darkness of its burrow. According to the auguries, this means that the winter is over, and that heavy overcoats may be laid away and things gotten in shape for the advent of the gentle season.

On the other hand, Forecaster Hyatt predicts in a cold-blooded manner that the winter is not over, and that for three days at least this section will have nothing but snow, accompanied with brisk weather.

throughout the West and Southwest, and the indications were that it would last for several days in these parts. It was part of an immense storm which swept the entire central region of the United States.

"Yes," said Doctor Hyatt, as he adjusted his snow gauge and compared the reading with sundry weather charts, "I am obliged to differ from my friend, the hedgehor. So far ahead as I can see, there is nothing but winter, and the worst kind of winter at that. I see indications of snow, mixed with equal portions of sleet and rain, which I think will prevail hereabouts for a long time to come. Clouds and winds are massing in the Northwest, which probably will reach us within the week, and the mercury will fall as if some one had broken the glass bulb. You can put me on record as saying that the groundhog knows nothing about it this time."

LINING THE RESERVATION FOR THE COMING BIG RUSH.

venture that the rush will furnish.

There are several organized camps of these men who expect to file their claims immediately after the opening of the reservation. One of these is at Ottawa, and among the others are three at Council Grove, Kas., two at Iola, one at Osawatomie, one at Gainesville, Mo., and two at

The territory to be opened lies in the great mineral belt of the Wichita Mountains. There are 12,000 mining claims and 8,000 "free home" claims.

The headquarters of the reservation at Commanche, I. T., are flooded with letters from all over the country asking for information as to the steps necessary in taking up land and initiating a homestead right. This has led to the issuance of this public notification:

REPUBLIC SPECIAL.

Chillicothe, Mo., Feb. 1.—The fight between rival Republican factions over the Chillicothe post office has resulted in a number of leaders preferring charges against Postmaster Beazell, all of the charges being filed by men who are trying to get Beazell ousted and one of their faction appointed in his stead. The principal charge was that the Postmaster had been selling mail boxes at a profit to farmers along the three rural free-delivery routes that run out of Chillicothe. It leaked out to-day that Post Office Inspector W. L. Reed of Monroe City was here Thursday to investigate the charges, and he is quoted as saying that the Postmaster had proven himself innocent of any offence.
